Documentation for changes in the templates for wrong formatting, information that are not supposed to be displayed, and orthography issues

- ## *MAGS*

In **mags**, the **BankAccountNumber** is not supposed to be displayed in PAC payments template:

> ### YOUR PAYMENT PLAN
> You will pay bkMonthlyCost per month as long as you are a member.
>
> For your convenience, your payments will be billed through your account#: bkBankAccountNumber and will read as bkMerchantCompanyNameFour, each subsequent payment will be applied each month on day bkRegBillDay of the month, your next payment date is bkNextBillDate.
>
> If you require any assistance, have billing inquiries or need to read the terms of services. Please

Modified for **no trial**:

> Your bill will read as ${MerchantCompanyName}, each subsequent payment will be applied each month on day ${RegBillDay} of the month, your next payment date is ${NextBillDate}.
>
> If you require any assistance, have billing inquiries or need to read the terms of services. Please give us a call at ${MerchantPhone} or visit ${Fulfillment}.
>
> Again, let me thank you for choosing *${MerchantCompanyName}*.

Modified for **trial**:

> You will pay ${MonthlyPayments} per month as long as you are a member.
>
> Your trial payment of ${IPAmount} was billed on ${IPBillDate}, and will read as ${MerchantCompanyName}, each subsequent payment will be applied each month on day ${RegBillDay} of the month, your next payment date is ${NextBillDate}.
>
> If you require any assistance, have billing inquiries or need to read the terms of services. Please give us a call at ${MerchantPhone} or visit ${Fulfillment}.
>
> Again, let me thank you for choosing *${MerchantCompanyName}*.

If you require any assistance, have billing inquiries or need to read the terms of services. Please give us a call at ${MerchantPhone} or visit ${Fulfillment}.

- ### *IDTHEFT*

In **IDTheft**, the **box** with information is too short to handle long string of information:
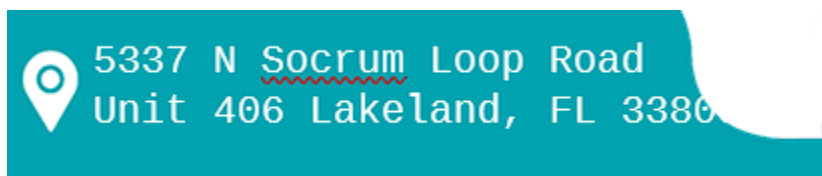

```
bkCustomerFirstName bkCustomerLastName
bkBillingStreetAddress bkBillingApt
bkBillingCity,                bkBillingState
bkBillingZipcode
```

Made wider the **boxes** to handle long strings:

```
${CustomerFirstName} ${CustomerLastName}
${Address}
${City}, ${State} ${ZipCode}
```

- *TELEMED*

The **zipcode** in the footer of the first page is not completely visible:

```
5337 N Socrum Loop Road
Unit 406 Lakeland, FL 3380
```

Modified all templates, so the **information** is being displayed correctly:

```
5337 N Socrum Loop Road
Unit 406 Lakeland, FL 33809
```
